

How to make Cards Against Humanity

- 1) Download the PDF and take it to a print shop. We found the best deal at Staples.
- 2) Have them print the game on heavy, white card stock; 80-pound or higher. The cards are all black and white, but if you can convince them to use the color printer for no additional cost, you'll get a much nicer result.
- 3) For added fanciness, you can print black on the back of the question cards so they're easier to tell apart.
- 4) Cut the cards up using one of those big slicers. Take your time and do a nice job and the cards will be easier to handle later.
- 5) We got an awesome clear AMAC box (model 102C) for \$1.50 at the Container Store that holds the cards perfectly.
